

BROWNSBORO Master Plan

"Planning for the Future of Oldham County"

Why?

- ~The Comprehensive Plan calls for the creation of Master Planning Areas throughout Oldham County~
- ~To address the unique characteristics and issues within the Brownsboro Planning Area~
 - ~To get more citizens involved in planning activities~
 - ~To foster a sense of community~
- ~To provide specific goals, policies and guidelines for decision makers~
- ~To specify projects, programs and improvements to establish funding priorities~
- ~To guide future growth and accommodate a growing population within the area~

Major Components

Vision Statement

During a public meeting in June, members of the community developed a vision statement. The following vision statement guides the Brownsboro Planning Area Master Plan.

The Brownsboro Planning Area is a unique, environmentally sensitive, rural community with connected greenways, designated growth areas, well planned infrastructure and design elements, all of which protect the Harrods Creek Watershed and respect local character. The Brownsboro Planning Area includes diverse housing, small business, farmland, equine activity, scenic views and village centers compatible with small town living.
